2019 HANYANG UNIVERSITY AT A GLANCE

at a glance 2019 cover

Greetings

Hello, I am Hanyang University's 15th president Kim Woo-seung. The world is currently facing a turning point at the start of the Fourth Industrial Revolution. Among many social changes, universities are facing unprecedented challenges, and I believe only those that succeed in transforming the education paradigm will survive the fierce competition. However, such a major shift can be both a crisis and an opportunity. Since its foundation in 1939, Hanyang University has used the rapidly changing social environment as a stepping stone for opportunities. By fueling the drive to change and to challenge, it is leading dynamic innovation and has become a prestigious global university. The rapid development it has been leading over the past 80 years embraces the core values of Hanyang University, "Love in Deed and Truth" and "Pragmatic Academia." We will take the lead in fostering "practitioners of love in deed and truth" through education that not just any school can provide, but that which is possible because we are Hanyang. In addition, we will implement "Pragmatic Academia" to communicate with society through industry-academic education, research innovation, and advanced industry-academic cooperation. Based on this, we will ensure a sustainable and authentic future for Hanyang University. Hanyang University, where all members are happy under the culture of empathy and communication! Please support Hanyang University as it soars to become "the best university for a better world."

President, Hanyang University Kim Woo-seung
